Centers for Disease Control and Prevention

[Announcement 98022]

Traumatic Brain Injury Surveillance and Traumatic Brain Injury Follow-up Registries

Introduction

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1998 funds for a cooperative agreement program for population-based data systems for Traumatic Brain Injury (TBI). The program will serve two purposes:

Part I—To support or enhance existing State surveillance systems for TBI to ensure they are population-based and provide high quality, useful data.

Part II—To develop or enhance population-based registries of persons sustaining TBI to better define the outcomes and secondary conditions associated with the injury.

CDC is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a national activity to

reduce morbidity and mortality and to improve the quality of life. This announcement is related to the priority areas of Unintentional Injuries, Violent and Abusive Behavior, and Surveillance and Data Systems. (For ordering a copy of "Healthy People 2000," see the section **Where to Obtain Additional Information.**)

Authority

This program is authorized under sections 301, 317, 391-394a, of the Public Health Service Act (42 U.S.C. 241, 247b, 280b-1 and 280b-2) as amended, and supported by Public Law 104-166.

Smoke-Free Workplace

CDC strongly encourages all grant recipients to provide a smoke-free workplace and to promote the nonuse of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicants

Eligible applicants are the official public health agencies of States or their bona fide agents. This includes the District of Columbia, American Samoa, the Commonwealth of Puerto Rico, the Virgin Islands, the Federated States of Micronesia, Guam, the Northern Mariana Islands, the Republic of the Marshall Islands and the Republic of Palau.

State agencies applying under this announcement that are other than the official State health department must provide written concurrence for the application from the official State health department.

For each part of this announcement, only one application per Part, from each State, may enter the review process and be considered for an award under this program.

Applicants may apply for Part I only or for Part I and Part II or for Part II only.

Priority preferences for Part I will be given to competing-continuation applicants who were funded under Announcement 526, who currently participate in CDC's multi-State TBI surveillance system, i.e., States that have provided population-based TBI data to CDC for cases incident in years 1994 or later.

Note: Public Law 104-65, dated December 19, 1995, states that an organization described in section 501(c)(4) of the IRS Code of 1986, which engages in lobbying activities, shall not be eligible for the receipt of Federal funds constituting an award, a grant, contract, loan, or any other form.
